The total combined amount of water granted under this permit and Permit 29193 is limited to what the well covered under the two permits is capable of producing. If certificates of appropriation are issued under this permit and Permit 29193, the total combined amount of appropriation granted in said certificates shall not exceed what the well covered under the two permits is capable of producing.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed..... 5.4..... cubic feet per second..... but not to exceed a yearly duty of 4.0 acre-feet per acre of land irrigated from any and/or all sources.
